SOHAM MHATRE

Toledo, OH • (419) 490-0073 • linkedin.com/in/sohammhatre

SUMMARY

Full Stack Developer with 3+ years of experience building scalable, production-ready web applications using **Java**, **JavaScript**, **HTML**, and **CSS**. Proficient in backend development using **SQL Server**, **Oracle**, and modern Java frameworks. Skilled in code review, performance tuning, and cross-functional collaboration. Passionate about delivering reliable, maintainable, and scalable software.

PROFESSIONAL EXPERIENCE

CVS Health - *Full Stack Developer* – Remote | 2021 - 2023

- Developed RESTful backend services using Java and integrated with React.js UI.
- Improved performance of database queries using SQL optimization in Oracle.
- Led code reviews and provided technical mentorship, increasing team velocity by 20%.
- Migrated core services from monolithic to microservices architecture.
- Reduced redundant code by 60% through component-based design.

Ridge Tools Company (Emerson) – Software Developer | *Jan 2019 - Dec 2019*

- Built scalable backend modules using Java and Spring Boot.
- Improved API response times by 40% through optimization and refactoring.
- Integrated SQL Server for relational data handling and developed custom queries.
- Participated in agile ceremonies, design discussions, and cross-team initiatives.

TECHNICAL PROJECT

FAVLIB – Full Stack Library Management System

- Engineered a CRUD web application using React (frontend) and Node.js with Express (backend).
- Implemented authentication, role-based access, and SQL queries in PostgreSQL.
- Used Docker for environment standardization and deployment.

EDUCATION

UNIVERSITY OF HARRISBURG   **Cleveland, OH**
Master of Science in Computer Science; Major in Software Testing   **2023-2025**
- Summa Cum Laude

UNIVERSITY OF TOLEDO   **Toledo, OH**
Bachelor of Engineering, Major in Computer Science   **2015-2020**
- Graduated Cum Laude

CERTIFICATIONS & CLOUD EXPERIENCE

- AWS Certified Cloud Practitioner (Sept 2024)
- AWS Academy Machine Learning Foundations (Oct 2024)

TECHNICAL SKILLS

- **Languages & Frameworks:** Java, JavaScript, HTML, CSS, Node.js, React.js, Spring Boot
- **Databases:** SQL Server, Oracle, PostgreSQL
- **Tools:** Docker, Git, Jira, Bitbucket
- **Concepts:** REST API, Microservices, Code Review, Agile Development
